Caddis fly / Yellow Sally

Today I would like to introduce you to the Yellow Sally as a dry fly.
Yellow stoneflies such as the Yellow Sally are considered by some anglers to be “bitter flies” that are supposedly rejected. But is that really true?
Walter Reisinger published a good report on this in the last issue of FliegenFischen No. 4 2025. Feel free to take a look.

This pattern is a replica of Walter Reisinger's dry fly.

Hook:	Size 12, for example TMC 912
Tying thread:	Yellow 6/0 or finer
Body:	Yellow dubbing
Ribbing:	Brown thread or Micro Metal from Semperfli
First wing and thorax:	Yellow CDC
Second wing:	Yellow deer hair
